Writes From Camp. An interesting letter has been received by Frank S. Campbell, of 30 East street, from his son, Eugene, who left here for Camp Devens, last Thursday. He says that he was on the bread truck, Saturday. There were six loaves in one and they left from six to thirty slabs in each place. Sunday was spent in cleaning the place and it is some place, although the roads are not very good, but are being improved every day.

The uniforms were distributed Tuesday. He writes the Willimantic fellows are the nicest fellows in the place, the captain says so, and they go to bed at ten o'clock, and if we come in at seven o'clock, we come in with our shoes off. We can't get up in the morning until six o'clock, when we get up at seven o'clock and we have about ten minutes to dress and wash for "grub pile."

NO REASON FOR IT

There can be no reason why any reader of this who suffers the tortures of an aching back, the annoyances of bladder disorders, the pains and dangers of kidney ills will fail to heed the words of a neighbor who has found relief. Read what this Norwich woman says:

Mrs. C. E. Fowler, 581 E. Main St., says: "I am very seldom without Doan's Kidney Pills in the house and I buy them at the Lee & Osgood Co. I have had attacks of backache which have come on from a cold. Sometimes overwork has brought on those dull pains across my kidneys. I haven't used Doan's Kidney Pills continually but just when my back has ached and felt weak and then I have never failed to get relief. I recommend Doan's highly because of my experience with them."

Price 60c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mrs. Fowler uses. Foster-Milburn Co., Mfgs., Buffalo, N. Y.

FURTHER EVIDENCE OF BERNSTORFF'S DUPLICITY

He Had Foreknowledge of Ruthless Seizure Warfare.

Washington, Sept. 26.—Further evidence that Count Von Bernstorff, the former German ambassador to Washington, knew of his government's intention to inaugurate a campaign of unrestricted submarine warfare prior to his resignation, was disclosed today by the release of a letter which the secretary made this statement:

"In view of inquiries which have been made as to whether Count Von Bernstorff knew of the purpose of his government to renew submarine warfare when he sent his resignation of January 22, 1917, and the authorization to expend \$50,000, I can state that the department of state possesses conclusive evidence that on or before January 19, Count Bernstorff had received and read the Zimmerman telegram to Minister Von Eckhardt in Mexico which contained the following:

"We intend to begin on the first of February unrestricted submarine warfare. We shall endeavor in spite of this to keep the United States of America neutral."

"Count Bernstorff was, therefore, fully advised of the intentions of the imperial government at the time when he asked authority of Berlin to employ funds for an organization to influence congressional action in favor of continued neutrality of this country."

RUSSIAN EXTREMISTS TRYING TO DICTATE

The Composition of the Provisional Government.

Petrograd, Sept. 26.—The attempt which is being made by extremists to dictate the composition of the provisional government, was evidenced last night at a combined meeting of the social revolutionaries and the peasants, soldiers and workmen's deputies, which adopted a resolution that the pending democratic congress elect a committee of its own which henceforth would constitute the cabinet, superseding the present provisional government.

It was decided to submit this plan to the congress for a vote. The Bolshevik members who were present claimed that all the cabinet members must belong to their party. The conservative elements declared the cabinet must be a coalition one, while the moderates suggested a compromise. Their proposition was that there be a coalition cabinet but that it be responsible only to the congress.

As the size of the congress, comprising 1,700 members, precludes its sitting permanently, it is planned to elect a smaller body, which will claim to be the all-Russian parliament sitting under the constituent assembly is chosen.

On the eve of the assembling of the congress the atmosphere is one of intense excitement, but the city remains orderly. A threatened demonstration by the Bolsheviks today did not materialize. The organizers themselves were compelled to issue a manifesto repudiating any intention of holding it.

With winter coming on, Navy League officials say, the troops in the field will need the woolen comforts the women make.
